

Welcome to the Carl-Friedrich-von-Siemens-Gymnasium

A very warm welcome to the Carl-Friedrich-von-Siemens-Gymnasium. We are an all-day school where challenge and choice create opportunities for girls and boys aged 12 – 18 most of whom aspire to graduate with a university entrance exam.

Our students can choose to be part of the bilingual, MINT or cultural line, offering interdisciplinary learning in state-of-the-art facilities and an extensive choice of extracurricular activities aiming to inspire each student to achieve their best in the classroom and beyond.

We can only show you a small part of life at the Carl-Friedrich-von-Siemens-Gymnasium here but we hope it will encourage you to find out more about our school.

about **560**
students

about **70**
members of staff including
teachers, social workers and
school personnel

"I like my school because of the bilingual courses and projects" (Svenja)

Our all-day school concept

From 8am to 4pm our students do not only benefit from a traditional lesson schedule but also from:

- several extracurricular activities like sports, cooking, tuition and other free time activities
- a long lunch break which can be spent in a well-equipped, cosy cafeteria
- a motivated team of social workers who spend lesson time with the students and who can be consulted any time in case of problems
- a small library run by our parents
- two big computer rooms.

"I like my school because of the friendly atmosphere" (Daria)

We are an official Climate School

Our school is situated in a very green part of Berlin with lots of trees and a river close by. We take great pride in the fact that we have our own bee hives looked after by our students and a professional beekeeper. We have a green class room which can be used outside in the summer and it goes without saying that we all separate our waste.

"I like my school because it offers many interesting projects" (Jonathan)

We are proud to have the official title "school without racism"

SCHULE	OHNE RASSISMUS
SCHULE	MIT COURAGE

"I like my school because of the good relationship I have with most of my teachers" (Julian)

Our yearly Christmas market is only one of many occasions in the year for which the whole school comes together.

Our school is international

Our school welcomes more than 500 students of more than 20 different nationalities. All of them learn English as their first and French or Spanish as a second foreign language. In addition to that they can also study Latin. Our newly formed bilingual class has had a

very successful start and gives students the possibility to work on different projects in English. We have lots of connections to other European schools through:

- the Erasmus+ programme (Key Action 1 and 2), for example with Spain, Slovenia, Island, Finland, Great Britain
- our official partner school in France which is the Collège André Ma Iraux near Paris
- an exchange programme with Grasten School in Denmark.

Furthermore, we run various e-twinning projects with other European schools and organise class trips to France, Spain and Great Britain every year.
